PILSNER

All pilsners are lagers but not all lagers are pilsners. These lager styles are brewed at colder temperatures than other lagers and usually contain certain hops that impart more bitterness. By being brewed at cold temperatures, pilsners are lighter in body and on the mouth feel.

IPA

An India Pale Ale is a style of beer that originates from the 1800s, when England colonised India, and the English wanted beer. But the ales that were sent to India, via South Africa, by boat always went off. They began to experiment and saw that by adding more hops and alcohol the beer was preserved for the long journey. IPA as a style was born. This means that IPA's are pale ales with a lot more hops added which means they are usually more bitter and have a lot more complex flavours.

SOURS

Sour beer, also known as Sours, is beer which has an intentionally acidic, tart, or sour taste. Sours are made by intentionally allowing wild yeast strains or bacteria into the brew, traditionally through the barrels or during the cooling of the wort in the open to the outside air.

AMBER & RED ALES

Whenever one encounters the term Red Ale, Irish Red or Ruby Beer, it is usually an indication that the beer is a five malted beer. This makes the beer a lot sweeter than an amber ale, it has a thicker in the mouth feel and is normally red or dark red in colour. Amber ale is usually a two malted ale, usually sweeter than a pale ale and brownish red in colour.

STOUT

Stouts are heavier and stronger versions of porters, by adding more heavier toasted malts and hops the beer becomes thicker and darker. Stouts should be dark to black in colour and has a quite thick on the mouth feel. The chocoholics meet the coffee addict...with less caffeine, and zero the guilt.
